| PROFILE

About *Me*

Raised in Lanzarote, now based in Southeast London. Video Editor and Assistant Editor experienced across high-end commercials, broadcast TV, and social campaigns.

I combine a strong creative eye with a deeply technical mindset – skilled in Avid MC, Premiere, and Resolve, and confident handling complex offline/online workflows. I build conform-ready timelines and deliver clean EDLs, AAFs, and XMLs for grade and finish.

I work across Mac and Windows environments and rely on the command line and open-source utilities like FFmpeg to troubleshoot, transcode, and automate repetitive tasks – keeping post running smoothly and independent of rigid pipelines.

AVID MC

PREMIERE

RESOLVE

FCPX

FFMPEG

MAC & WINDOWS

| N L E

Avid Media *Composer*

Primary NLE for high-end commercial and broadcast. Structured timelines, bin management, rushes sync, technical conforms, sequence prep for grade, mix and online.

LONG-FORM

COMMERCIAL

BROADCAST

CONFORM

| N L E

Adobe *Premiere*

Branded content, social campaigns and fast-turnaround edits. Multi-layered sequences, audio syncing, mixed-format media, versioning and quick delivery cycles.

SOCIAL-FIRST

VERSIONING

FAST TURNAROUND

| GRADE & FINISH

DaVinci *Resolve*

Online conforming, relinking, shot-matching, grading, proxy generation, transcodes, delivery checks and mastering-ready exports.

PROXY

CONFORM

COLOUR

QC

MASTERING

03.

| WORKFLOW

Technical *Handoff*

Deep proficiency in XMLs, AAFs and EDLs.
Complex transitions, retimes and multilayered
timelines translate cleanly across VFX, sound,
colour and external post houses – nothing lost
in the conform.

DELIVERABLES

EDL · AAF · XML · MXF · ProRes · H.264 · H.265 · ClearCast-
ready masters

PLATFORMS

Avid NEXIS · Frame.io · Aspera · Media Shuttle · MASV ·
WireDrive

ENVIRONMENTS

Mac & Windows · Shared storage & remote workflows · PostLab ·
EditShare

04.

| COLLABORATION

Cross-Department *Workflow*

■ VFX & Sound

AAF and XML exports structured for seamless roundtrip. Retimes, effects and multilayer comps preserved across systems.

■ Colour & Online

Confident taking on the full online process – conforming, relinking, grading and mastering end-to-end or alongside a specialist team.

■ Client Review

Frame.io for timestamped feedback, version control and stakeholder alignment throughout the edit lifecycle.

05.

| ORGANISATION

Asset *Management*

Robust asset management practices – organising project files, media assets and version histories for quick access and efficient updates throughout production.

Completed projects meticulously archived with structured documentation to facilitate future retrieval, revisions and re-versioning.

FOLDER STRUCTURE

Consistent project templates – Paperwork · Audio · GFX · LUTs · Footage · Project Backup · ALEs · From Grade · Out · Post

MEDIA MANAGEMENT

MDVX · OffShoot Pro · FoolCat Pro · Kyno · Wave Agent · Post Haste

NAMING CONVENTIONS

Date-stamped, structured naming across all rushes, cuts, exports and deliverables. Clean EDL-ready clip names from day one.

06.

| COMMUNITY

Ecosystem *Contributor*

Active contributor to the post-production community – testing beta software and providing practical feedback grounded in real-world workflows.

Contributions include Shutter Encoder, FoolCat, and Offshoot – helping confirm functionality, identify issues, and refine features before public release.

Active across Reddit, LinkedIn and the Adobe Community.
